Professor A. J. Bell,
Victoria College.

Dear Professor Bell:

We have applications from eighteen teachers from Toronto for winter work in Latin. We are convinced that this work will be greatly appreciated by this class of student and we wish to open the University to them as widely as possible. The University Professors are undertaking work in the Departments of Biology and History, and Professor Fletcher is willing to undertake half of the work in Latin in addition to the ordinary duties. I wonder whether you would share in the Latin work with Professor Fletcher. I am sorry that we are unable to offer remuneration for this winter work as the arrangements of the Governors made some years ago were that only the teaching in the summer months would be paid for. Dr. Abbott desires to have the classes begin on Saturday, the 14th.

With kind regards, I am,

Yours sincerely,
